12 MILLION PROFIT IN 12 MONTHS

BIG PROFITS OF UNION OIL SHOWN FOR YEAR 1920

Net profit of Union Oil Company of California, which has a large refinery at Olenum, for the year ended December 31, 1920, amounted to \$12,053,881, after deductions for depreciation and all taxes, according to the annual statement just made public by President W. L. Stewart. This is a gain of \$1,400,127 over 1919. The earnings, without deduction for depreciation but after allowing for Federal taxes, amounted to 25 1/2 per cent on the capital stock.

Production of crude oil during the year from the company's California properties and those of its controlled companies within the State amounted to 5,681,398 net barrels as against 5,705,447 net barrels in 1919. Altogether forty-four wells were brought in during the year, having a total settled production of about 8300 barrels a day.

Sales for the year amounted to \$63,430,146, a gain of \$10,069,220, or 19 per cent over the preceding year. The value of the fuel oil business increased 14 per cent, and that of refined and lubricating business 25 per cent.

The large deliveries of fuel oil during the year caused a draft on the Union's oil stocks which, notwithstanding the large credit for oil due the company in Mexico, showed a decline of 464,505 barrels. The draft on its California oil stocks for the year was 3,184,000 gross barrels.

Martinez Drops City Engineer After Big Fight

An end to the long controversies between Martinez board of trustees and City Engineer W. S. Farley has culminated by the trustees voting unanimously to rescind all unperformed contracts for civic improvements, thus bringing to an end Farley's connection with the city payroll. Except in the case of two contracts now under way, the decision of the board operates to discontinue with Farley.

Action by the board was precipitated by Trustee Thomas Johnston, who said that he could point to no fewer than forty mistakes in Farley's work, and who said that he objected to the city's engineer acting for the city in his office at 314 Francisco instead of in the field at Martinez. After voicing his objections, Trustee Johnston moved that all contracts be rescinded and there was no dissenting vote.

When the decision of the trustees was announced, Farley put in a claim for \$2000, and said that there would be more.

For a number of years Farley was city engineer of Richmond, but was succeeded by H. D. Chapman.

Mrs. Anna Barbara Paulsen passed away yesterday at the home of her daughter, Mrs. D. J. Hall, wife of City Attorney Hall, at the age of 74 years. Deceased was a native of Germany, but had spent 66 years of her life in California, and came here five months ago to make her home with her daughter. NEWS FROM CUBA HAS EFFECT ON SUGAR PRICE

San Francisco wholesale sugar prices were quoted at 38 per 100 pounds following advances announced yesterday morning by the California and Hawaiian Sugar Company and the Western Sugar Refinery. The advance amounts to 75c per 100, and is the first for the year.

The report that President Menocal of Cuba had appointed a committee to control the marketing of the Cuban sugar production and rumors that a minimum price of \$5 per cent would be set preceding the increase, and had resulted in strengthening of the New York market for raws and refined.

The news from Cuba caused sharp advances in the price of raws in the New York market yesterday. Late last week sales of Cubas were made at 45-50c cost and freight, but at the close of yesterday's market sales of Porto Rico had advanced to 60c for centrifugal. There were no sales of Cubas.

Richmond Temple Pythian Sisters Valentine Party

Richmond Temple, No. 36, Pythian Sisters, had a most successful Valentine dancing party at the Pythian Castle last night. The occasion was held in the nature of a "get together" for members. The hall had been tastefully decorated with valentines, flowers, etc., and presented a scene of gaiety. Miss Rose Parker headed a committee of over a dozen who worked indefatigably for success. Refreshments were served.

The temple is planning a barn dance, to take place at the Pythian Castle on February 25. The stipulation is made that everyone attending must wear overalls and aprons.

BABY DAUGHTER CAUSES REJOICING

A wee girl entered the family of Mr. and Mrs. Louis Byer of 329 Pennsylvania avenue yesterday. The baby was born at the Craven Hospital with Dr. E. W. Cunningham in attendance. The daughter caused great rejoicing for she came into a family of boys.

Selinger of Martinez and Dr. Fernandez of Pinola. Report was made that the association during the past couple of years had made good progress in liquidating its indebtedness.

BOOZE AND GAMBLING TO BE ENDED BY POLICE

The new enforcement ordinance, which was given its final passage by the council Monday night, is now in full force and effect, and the work of putting the bootleggers and "hip-pocket" peddlers out of business, that seems to have been overlooked by the Federal officers, will be taken in hand by Chief of Police Wood and his men.

The necessity of such an ordinance has been seen in Richmond for a long time, and its passage was brought about to do away with an evil that was becoming so great that protests were being raised by all classes.

Under the new ordinance, the local police have the same power as a Federal officer, and just as soon as a few raids are made, and stocks of bootleg whisky is dumped into the gutters, the tendency to do away with the illegal sale of liquor will be very strong.

Along with the enforcement of the new ordinance, there will likely be the closing up of a number of gambling joints that are operating on the avenue.

Civic Center Club Plans for Bazaar in Near Future

The Civic Center Club met yesterday afternoon at the home of Mrs. C. F. Donnelly for a business session, and at its conclusion refreshments were served. A general discussion took place regarding the holding of a bazaar for the benefit of the club in the near future. The date was not set.

OFFICIAL PAPER CITY OF RICHMOND

THINKOGRAPHS by F. J. HULANISKI

OH LORD, GIVE US BRAINS!

Recent statistics give to this country ninth place as to education and literacy, meaning that we have more ignorant and illiterate people per capita than eight other nations have. This is a bad showing, and it due almost wholly to the fact that a constant stream of low grade foreign immigration pours in from the serfdom and slums of defunct kingdoms over the seas, where ignorance is at a premium. Ignorance is the worst curse any country can be afflicted with, and we must all fight it tooth and nail. We are wont to boast of the superior intelligence of the American "sovereign," meaning voter; yet the fact must be patent to anybody who has eyes to see and a headpiece to understand the simplest social phenomena that tens of thousands of votes cast are but random shots into the darkness. At least a fourth of those who hurrah for democracy or republicanism could not save their immortal souls give a lucid explanation of the real difference between those two parties, and do not know the science of political economy from a solar system. They vote like blockheads and then scream and rant because of the effects thereof. We should vote down all public expenditures of large sums save and except those for educational purposes, for we need brains and the knowledge of using what we have worse than anything else. At present we run largely to stomach and bowels.

GOVERNMENT ETERNALLY JOBBED

The utter breakdown of the Government control of railroads and shipping, both by rail and water in this country, is not a sound argument against the advisability of Government control of railroads and ships, but is simply a glaring proof of the fact that Government is eternally robbed and jobbed by its public servants, most of whom would be discharged from their places if working for private enterprises so quick it would make their heads swim. The theory is all right, but the practice does not come up to it. Turning railroads and ships over to Government is one thing and turning them over to political jobbers and patriots for revenue only is another.

With ease we track a comet's course,
 The path that it should burn;
 But go plumb bugs in making out
 Our income tax return.

Just as soon as the demon rum was properly harpooned, the women and preachers got chesty and stayed on the trail of nicotine, whereupon Tennessee and other states are repealing their anti-cigarette laws. Better let well enough alone.

Fellow male sufferers, if the women keep on pestering us about our tobacco, let us pass a law prohibiting powder puffs, lipsticks, candy and chewing gum. The feminine jaw gets exercise enough without gum, anyhow.

Southern or hothouse grown cucumbers have shot athwart the market morn at 15c per. They are about the size of a guber pea, if you know what that is, have hides as thick as some people's heads, and are as full of cramp colic as bootleg booze is of devilment.

The railways owners and managers and the railway workers can all make up their minds to one thing, and that is that the people are not going to stand for any more raises, and the quicker they all soak that fact in the better for all parties concerned, including themselves.

The Democratic "leaders," so-called by courtesy, are still standing at Armageddon, but instead of battling for the Lord they are baying at the moon.

There may be machine politicians who are honest men, and there may be pink elephants with green trunks who stand on their heads and wiggle their tails at the moon; but it is doubtful, even though there are men living where bootlegs are deep who claim to have seen both.

CRIME STILL RAMPANT

Many gangs of thugs and thieves are being broken up in the large cities all over our fair land, and the jails are getting full of bandits, but still the news columns of the daily press contain little else than the exploits of this gentry. One reason for this tuning to banditry is because of the high wages paid during the war; the youths got used to having all kinds of money and spending it lavishly, and now they refuse to get back to first principles. Thousands are browsing along the edge of dishonesty and looking longingly into the forbidden field. The main reason back of it all is lack of intelligence; the greater the fool, the greater the likelihood that he is dishonest; he does not know or realize that dishonesty is a mistake; with them principle is not as powerful as a policeman. The better any man behaves himself the better he gets along in this world—morally, financially, and every other way; but these young men have not learned this truth yet. They will learn it from experience as they get older, and a part of the experience will be jail terms, shame, disgrace and the lash of public opinion.

AMERICAN WOMEN LEAD

All other countries have to take a back seat for America when it comes to the just and proper treatment of women. She used to be a slave, a chattel and a drudge, and is all that yet in such countries as Turkey or Egypt, but it was for American manhood to arise in its love and chivalry and strike off her shackles. We now have them in our Congress and many of our state legislatures, and have opened wide our business and all other doors to her as no other nation has. No woman need sigh for the ancient days of chivalry, for no belted knight in armor plate ever did the one-half for woman what the American man has. These prototypes of an iron foundry made much fuss and spilled each other's hot blood for a lady's favor, but it took the man of the United States to raise her up to and above his own level and grant her all the privileges he has himself. He has made every law that does her an injustice a joke, and looks upon every nation failing to guard her as its glory as one either going or gone.

Freedom shrieked when the kaiser busted loose; it shrieked again when prohibition carried, and now it is shrieking over general conditions. Freedom does a lot of shrieking when she might better be tending to her knitting of hoeing corn.

Unless Congress gets busy providing work for jobless men this spring, there is going to be a lot of jobless congressmen after the next election.

A university physical instructor says that exercise is conducive to morality. That's right. A fellow who follows a plow or wields a garden spade about ten hours a day does not get into much mischief.

It is said that Colonel Bryan is as fond of prunes as he is of grape juice. We judge so by his actions during the late lamented campaign.

Chairman Will Hays has appointed a committee to investigate Republican party conditions in the South. First we ever heard that there were such things.

A New York woman lecturer asserts without fear of successful contradiction, that Adam and not Eve was the rib. We have nothing to say about that, as it happened so long ago, but can testify that whether he was the rib or not he has been the goat ever since.

A large standing army is not needed in this country at this time, and may never be again. The man in uniform stands around holding a gun and producing nothing, while those who do produce have to pay his keep, and also pay for the gun.

FIERY, ITCHY ECZEMA
IS HEALED RIGHT UP
WITH THIR SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Mentho-Sulphur from any good druggist and use it like a cold cream.—Adv.

BOOZE ON TANKER

A raid made yesterday on the Standard Oil tanker Tachee, which arrived at San Francisco from Shanghai, disclosed 270 bottles of whisky. Seventy were in the storeroom and the rest between false walls in the carpenter's shop. The raid was made under the direction of Surveyor of Customs John S. Irby.

Fall and Winter

These Charts Show Why Your Electric
 Light Bills Are Higher Now Than
 In Summer

Study the above charts. The one at the left shows the relative number of hours of daylight and darkness and the hours of use of Electric Light in each day during the Spring and Summer.

The chart at the right shows the same comparison between darkness, daylight and hours of use of Electric Light, but for the Fall and Winter months.

You will notice that there is two-thirds more darkness in each day during the Fall and Winter than in the Spring and Summer, and, that on account of it, it is necessary to use your Electric Light nearly three times as much every twenty-four hours as in the Spring and Summer.

It is only natural, therefore, that with this increased consumption of Electricity for lighting, your Electric Light bills will be somewhat higher.

Daniels Asks for Radio Control by United States

WASHINGTON, Feb. 15.—In a plea for Federal ownership of all high-power radio stations, Secretary Daniels in a letter to Chairman Page of the Senate naval committee today declared that "if there is one thing in which there should be a monopoly it is monopoly of the air, and this monopoly should not be given over to private interests."

Daniels' letter was in answer to a request from Senator Page for an opinion on the resolution introduced by Senator Poindexter, Republican, Washington, to regulate the operation of and foster the development of radio communication.

Asserting that he was fully aware of the opposition that existed to government ownership of public utilities, Daniels declared experiences before and during the war demonstrated that radio stations within the United States were being used for the transmission of "unneutral" messages.

"One grave danger that confronts us," the letter said, "is the possibility, I might say the probability, of a union through interlocking directorates of the private cable interests with the private radio interests, for it is not inconceivable that the interests that own and control the cables might also be interested in a radio corporation whose special interests might be served by the provisions of the pending bill."

"Amateur stations should be under government control," Daniels declared.

Rice Growers Are Charged With Bad Market Condition

Charges that California rice growers are holding back their crops and paralyzing all branches of the rice industry are made in a statement issued by the Rice Association of California, and composed of millers, brokers, exporters and importers.

The statement is in reply to accusations of manipulation and fraud involving \$1,500,000 worth of rice recently made against millers by the growers, and while holding the millers and brokers clear of guilt, accuses the producers of having themselves broken the markets for their product.

"Had the rice growers sold their 1920 rice at the time millers, brokers and exporters urged them to sell, California would not be facing

the acute situation in the industry that is now being confronted," says the statement, issued by Robert Mason, secretary of the association.

Boarding of rice by growers for higher prices at the time when they could have obtained good prices because of the scarcity of foreign rice is charged. Twice the rice actually exported could have been sold at remunerative figures had the brokers and exporters been able to reach satisfactory agreements with the growers, says the statement.

As a result of this boarding, it continues, the rice industry of this State must now compete with immense crops in all the rice-growing countries in the world, while rice from Louisiana, Texas and Arkansas can be sold in California at prices lower than those asked by California handlers.

SAVED THE DAY

"Frank, I tell you it's a crime the way tires and gas have gone up. The family needs their Sunday outing, but with new spring outfits needed for the wife, boys and myself, I'm afraid I'll have to put the old boat in the stable for a couple of months until we get enough cash together to have the folks dressed the way they're used to."

"Sam, it's a cinch you haven't heard of Cherry's easy payment plan. My wife and daughters get all their clothes there, and I pay for them a little each payday and you've often remarked how well dressed they are."

"Hitch up the jitney, drive the folks down there tomorrow morning and you'll come out looking like the Sunday supplement and you won't have to place the machine in storage either. Where? Why, Cherry's. The women's store is at 515 Thirteenth street, the men's and boys' store is at 528 Thirteenth street. I think you'll have to take us out on one of your outings for that information, old man."—Adv.

This photograph was made just as Mayor John F. Hylan of New York and his Police Commissioner, Richard E. Enright, were leaving from their automobile before capitalizing to former Governor Charles S. Whitman, who as Special Deputy has been investigating charges of corruption in the city administration. They had been served with subpoenas to appear before the Additional Grand Jury after Commissioner Enright had sent a letter to District Attorney Swann refusing police aid and quoting a letter from Mayor Hylan in which he took a similar stand. They agreed to aid the investigators and it is thought that they will not be called upon to testify before the Grand Jury.

The Home-Staying Dollar

Is the dollar that counts in the long run. It's the dollar that eventually "comes back." If Jones buys a suit of clothes from Smith and Smith buys a pair of shoes from Jones, the dollars involved in the transaction stay in Richmond and both Jones and Smith make a profit.

If, however, Jones buys his suit in some other town and Smith goes elsewhere to buy his shoes, both Jones and Smith lose a profit and the money each spends may never come back to Richmond.

Too many Richmond people buy suits and shoes—and many other necessities—in other cities. Richmond is a prosperous community to be sure, but not nearly so prosperous as it would be if we all remembered that the home-staying dollar,

CHILDREN DOING THEIR BIT FOR THE MOST SUFFERING OF EUROPE

The children of Richmond have not refused to hear the call of the starving little ones in Europe, and have already contributed over \$200 to their share of the fund; \$100 was raised by the high school pupils at their basketball games, \$77.08 was given by the Sunday school of the Presbyterian Church, and the school children of the Lincoln and other schools turned over to the relief fund the \$77.25 which was received from them by the American Legion when the matinee of the war pictures proved unsatisfactory last week.

All nations and creeds are helping towards the great fund, which must be raised. The Knights of Columbus have recently voted to turn over to the fund the four million dollars which was raised for war relief, but not needed for that purpose. This organization did a big overseas work and is conversant with the actual conditions in the stricken countries where the children are starving today. If they have given this amount no one need fear that local contributions will not be properly used.

Recent contributions received from local organizations: Bricklayers' Union, No. 17, \$5.00; Hermann Sisters, \$5.00; Ladies' Auxiliary to Brotherhood of Railway Trainmen, \$5.00; Presbyterian Sunday School, \$7.08; Richmond Postoffice Clerks, \$4.00; Japanese Camp, \$2.00.

Among the entertainments which are being planned to raise money for the fund are the card party to be given by the Richmond Club ladies, and the concert at the Grant school under the management of Mrs. W. E. Cunningham.

THROAT TROUBLE CURED

Oakland, Nov. 1, 1920. To whom it May Concern:

I suffered from throat trouble for 15 years, during which time I could neither eat nor swallow without pain. I became very weak and was unable to work for months. I had numerous doctors and then tried a Throat specialist, who told me that my trouble was due to the blood.

He advised me to take blood medicine. Thereupon my brother, who had been cured of Stomach Trouble by the FONG WAN HERBS, urged me to try them. After drinking the herbs for 15 weeks, I felt entirely well. I have since gained 25 pounds. It is 10 months since I took the herbs, and I am now giving the testimonial to let the public know that any sufferer should try the FONG WAN HERBS. I am a watchman for the California Food Specialties Co.

Mother and Son Wedding Days Set One Day Apart

Mrs. Emma H. Bowers, well-known member of women's clubs of Richmond, will become the bride of Charles Wood, prominent east bay business man, next Saturday afternoon, and the preceding day the former's son, Dudley H. Bowers, will claim as his bride Miss Gladys Boyer of Oakland. The latter ceremony will take place at the home of the bride's father, Charles Boyer, in the Lakeside district, and the next day the two will be attendants at the wedding of Mrs. Bowers and Wood, which will take place in Los

Gatos. The young couple are to take a honeymoon trip, and after their return will take possession of an attractive bungalow in Richmond, where Bowers is connected with the Standard Oil Company. Woods and his bride will take a motor trip and return to Oakland about March 1 to make their home.

LOS ANGELES BANDIT IS SHOT BY OFFICER

LOS ANGELES, Feb. 15.—A man who gave the name of John J. Diamond was shot and possibly fatally wounded here early today by Patrolman D. A. Baker, after, according to the policeman, he had participated in the attempted robbery of another officer, J. A. Lucas, who was in plain clothes and pretending to be intoxicated.

Stop All Loans to Foreigners, is Senate Order

WASHINGTON, Feb. 15.—The Senate judiciary committee today informed Secretary of the Treasury Houston that it is the sense of that committee that he should make no further extensions of credit to any foreign government, or any commitments, past or present, until the committee has had an opportunity to determine all the facts surrounding foreign loans and make a report to the Senate.

This action followed receipt of word from Secretary Houston that he was not prepared to appear before the committee today to present all data on foreign loans.

The judiciary committee yesterday called upon Secretary Houston to appear before it today with all documents and data relative to foreign loans. The committee met at 10:30 this morning prepared to hear the secretary in executive session. At that time it was announced that Secretary Houston had sent word that he was not prepared to appear before the committee as he was "preparing his papers."

A DISCOVERY

"Hello, Hello! Are you still there, Gladys? Do you remember the dress we saw last week which I was so crazy to have, but said I didn't have enough money to pay this month? Well, would you believe it, I have that dress, and I've made a discovery. One of the girls in the office—you know, the one I told you was always so well dressed—told me she gets all her clothes at Cherry's, 515 Thirteenth street, by paying a small amount down and the rest in very easy payments. I'm going to get loads of pretties from now on, as it is so easy to pay that way."

At Cherry's men's store, 528 Thirteenth street, they have some wonderful value in men's overcoats at \$18.75. Just think of that!—Adv.

James Towers, Jr., has been named chairman of the floor committee for the Shriners' ball to be held at East Shore Park February 26.

Yuba Farmer is Accused of Being a Draft Evader

Charles Mario Cerati, 31, a Yuba City farmer, faces cancellation of his citizenship, if not worse punishment, as a result of an investigation made by naturalization investigators working under George H. Crutchfield. Cerati is alleged to have been a draft evader and to have sworn falsely that he had never been convicted of a felony.

It is charged that after registering for the draft on June 5, 1917, Cerati, early in July of that year, fled to Mexico following the filing of a claim for exemption on the plea of a dependent wife.

At Ensenada, it is stated, Cerati was arrested, with several other draft evaders, and taken from the steamer Anvil by a U. S. revenue cutter and returned to San Diego. Returned to Yuba City, Cerati was inducted into the army and sent to Camp Lewis.

While in training there Cerati obtained his discharge upon filing a second affidavit that he had a wife dependent upon him.

Cerati appeared before Judge M. T. Dooling of the U. S. district court on January 26 last and was admitted to citizenship under the soldiers' act.

He testified before Judge Dooling, it is stated, that he had never been convicted of a felony, whereas he was fined under the Wiley local option law in 1917.

The federal investigators assert that Cerati had no wife, was not entitled to exemption, and that the people of Yuba City are greatly aroused.

"A Dancing Fool" Star Attraction at Theater Today

Anyone in want of an antidote for hard times or of the "blues," is recommended to pay a visit to the T. & D. Theater today and see Wallace Reid in "A Dancing Fool," which comes with the reputation of being absolutely one of the greatest mirth provokers turned out by any

movie corporation in a long while. Anyone who could witness this uproarious comedy without violent disturbance of the risible faculties, it is claimed, would be well advised to see a doctor. Wallace Reid and his girl partner take a job as a dancing team in a cafe and the situations that follow are reported to be intensely funny without ever a dull moment from beginning to end of the film. The balance of the program today will fully sustain the reputation of the theater for submitting nothing but the best.

Solve Mystery of Missing Cats by Police Case

The mystery regarding the disappearance of so many cats from Richmond was solved by a case which came before Judge Odell yesterday, when a man whose name is withheld by the police was given a grilling for buying cats from small boys and selling the animals to medical colleges for experimental purposes. The man is said to have paid the boys 25c to 50c a head for the cats and to have received \$1.50 from the colleges for them. Promising to desist from the practice, the man was released. The case came before the court through the loss of a pet by a well-known Washington avenue matron.

U. S. Army Fourth Smallest in World, Relatively, Report

WASHINGTON, Feb. 15.—The United States has a smaller standing army in proportion to her population, than any country in Europe, and only three countries in the world, Brazil, Paraguay and Colombia have a relatively smaller armed force, according to statistics given out today by the war department. Even Germany has a relatively larger army than the United States.

Mother Saves Burning Child; Will Survive

June Hewitt, 2-year-old daughter of Mr. and Mrs. Arch Hewitt of Martinez, suffered severe body burns when her clothing caught fire while she was playing near the kitchen stove. The agonized cries of the little girl attracted the mother, who was outside the home. Mrs. Hewitt smothered the flames with a cloth and then rushed the girl to the hospital, where it was said yesterday she would survive.

PLOT TO BOMB PRESIDENTS YACHT

WASHINGTON, Feb. 15.—The heels of rumors of a plot to blow up the presidential yacht Mayflower, a seaman on the yacht was placed under arrest today, the navy department announced.

Navy department officials stated that the seaman has asked permission of a boatswain to be allowed to go off duty from the Mayflower at a certain hour during the night, stating that he wished to bring a "package" aboard, and intimating that he would be willing to pay a sum of money for the privilege. It was learned that he was to meet a

Bandits Clean Up Gamblers of More Than \$20,000

LOS ANGELES, Feb. 15.—Three armed and masked bandits early today raided a card game in a room of a downtown hotel, robbed twelve participants of more than \$20,000 in currency, jewelry and negotiable checks, and escaped after shooting one of the players and severely beating another.

A dozen or more men were playing draw poker, seated at a table in a room of a hotel at Ninth and Main streets, the police were informed, when the robber trio burst in upon them. Each was masked and carried two revolvers.

Lewis F. Garrett, living at the Alexandria Hotel, was shot through the neck and his jaw was broken when he hesitated when commanded to raise his hands. Robert Porter, staying at the Van Nuys Hotel, was struck in the mouth with the butt end of a revolver when he failed to hand over his money fast enough.

Flivver Knocks Out Train in Albany Smash

When a train and a flivver dispute possession of a right of way and crash into each other, the natural things to expect is that the train would come out an "easy winner," but it does not always happen that way judging by this story from Albany:
